DISTRICT # 1

i.e. CR 8514

George O'neil, who has been with Grand county Road and Bridge for over thirty four years, was asked how long has CR 8514 been maintained by the Road and Bridge. To the best of his knowledge he estimates the CR8514 has been maintained for over thirty years.

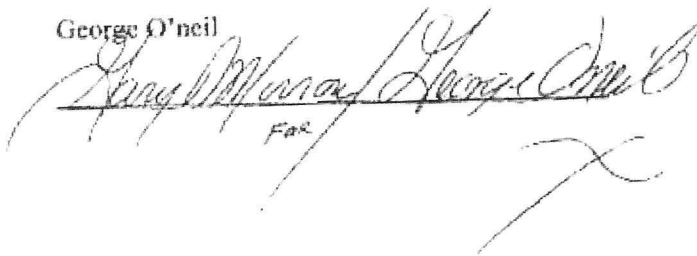

I have been with Road and Bridge for twelve years and in all that time I know that CR8514 has been maintained including snow removal, ditch work and gravel road base.
